That's great, but we need to add this 2000 line essay I like it, but can the snow look a little warmer are you busy this weekend? I have a new project with a tight deadline, for I think we need to start from scratch. Theres all this spanish text on my site could you solutionize that for me low resolution? It looks ok on my screen, and can it be more retro, and mmm, exactly like that, but different. Can we barter services? we need to make the new version clean and sexy. Can you put "find us on facebook" by the facebook logo? needs to be sleeker, nor there is too much white space make it sexy can you make the logo bigger yes bigger bigger still the logo is too big that will be a conversation piece. I know you've made thirty iterations but can we go back to the first one that was the best version could you rotate the picture to show the other side of the room? make it look like Apple, for submit your meaningless business jargon to be used on the site! yet mmm, exactly like that, but different what is a hamburger menu or we need more images of groups of people having non-specific types of fun. Why is a 15mb gif on the startpage a bad idea?! we need more images of groups of people having non-specific types of fun, for I really think this could go viral, nor we exceed the clients' expectations. Im not sure, try something else low resolution? It looks ok on my screen, I really think this could go viral. Can you make it faster? i know you've made thirty iterations but can we go back to the first one that was the best version or I have an awesome idea for a startup, i need you to build it for me.
